Classification Talks

Rotary Club of McKinney Sunrise, District 5810
Club Number 28762, Chartered May 22, 1992
P.O. Box 2244, McKinney, Texas, 75070

The Classification Principle

Virtually all membership in Rotary is based upon a "classification." Basically a classification describes the distinct and recognized business or professional service which the Rotarian renders to society.

The principle of Rotary classification is somewhat more specific and precise. In determining the classification of a Rotarian it is necessary to look at the "principal or recognized business or professional activity of the firm, company or institution" with which an active member is connected or "that which covers his principal and recognized business or professional activity." It should be clearly understood that classifications are determined by activities or services to society rather than by the position held by a particular individual. In other words, if a person is the president of a bank, he or she is not classified as "bank president" but under the classification "banking."

It is the principal and recognized activity of a business or professional establishment or the individual's principal and recognized business or professional activity that determines the classification to be established and loaned to a qualified person. For example, the permanently employed electrical engineer, insurance adjustor, or business manager of a railroad company, mining company, manufacturing concern, hospital, clinic, etc., may be considered for membership as a representative of the particular work he or she may be doing personally or as a representative of the firm, company, or institution for which the professional service is being done.

The classification principle also permits business and industries to be separated into distinct functions such as manufacturing, distributing, retailing and servicing. Classifications may also be specified as distinct and independent divisions of a large corporation or university within the club's territory, such as a school of business or a school of engineering.

The classification principle is a necessary concept in assuring that each Rotary club represents a cross section of the business and professional service of the community.

Today's Thoughts in Honor of

National Boom-Box Day - July 4th

When griping grief the heart doth wound,
and doleful dumps the mind oppresses,
then music, with her silver sound,
with speedy help doth lend redress.

William Shakespeare (1564 - 1616)

Independence Day – July 4th

If liberty and equality, as is thought by some are chiefly to be found in democracy, they will be best attained when all persons alike share in the government to the utmost.

Aristotle (384 BC - 322 BC),

Worst Day of My Life –

A little guy is sitting at the bar just staring at his drink for half an hour when this big trouble-making biker steps next to him, grabs his drink, gulps it down in one swig and then turns to the guy with a menacing stare as if to say, 'What'cha gonna do about it?'

The poor little guy starts crying. 'Come on man I was just giving you a hard time,' the biker says. 'I didn't think you'd CRY. I can't stand to see a man crying.'

'This is the worst day of my life,' says the little guy between sobs. 'I can't do anything right.' 'I overslept and was late to an important meeting, so my boss fired me. When I went to the parking lot, I found my car was stolen and I don't have any insurance. I left my wallet in the cab I took home. I found my wife in bed with the gardener and my dog bit me.'

So I came to this bar trying to work up the courage to put an end to my life, and then you show up and drink the dang poison.
