## Abigail Headed Off to France Soon

A Bon Voyage party for Abigail Gibney, outbound Rotary Youth Exchange student from District 5810, was held at Stonebridge United Methodist Church on July 19 with the New Generations Committee of McKinney Sunrise Rotary Club as hosts. Abby is the daughter of Denis and Sharon Gibney, who attended the dinner along with her sisters' Emma and Clare. Her sister Grace, who is now in college, is a former Rotary Youth Leadership Awards participant.

Abby is a graduate of McKinney North High School where she served as the President of the Student Council and Historian of the Interact Club. No stranger to Rotary

International projects, Abby's leadership at her school raised thousands of dollars for Mary's Meals and a kitchen in Malawi this past year. She will be a Rotary Youth Exchange student to France this coming school year.

Abby is the second outbound Rotary Youth Exchange student sponsored by the McKinney Sunrise Rotary Club. The club will also sponsor their first incoming Rotary Youth Exchange student from Germany who will attend McKinney High School this fall. Julian Wallmueller, from Kirchhellen, Germany, will be living with Bill and Jenna Bilyeu.

Jean-Daniel and Barbara Grimm, District 5810 GSE Team; Sam Zarro, Director of District 5810 Rotary Youth Exchange Program, and wife Peggy; Assistant Governor Peter McLellan; and District 5810 Governor Sandy Forster were introduced by Gary Taylor, President of McKinney Sunrise Rotary Club.

Jean-Daniel and Barbara Grimm gave a short talk on what to expect living in France. Sam Zarro provided background information about the Rotary Youth Exchange program. District 5810 will have 8 outbound students and 8 inbound students this coming school year. Rotary International has over 8,000 students from 170 countries who participate in the Rotary Youth Exchange program each year. The purpose of the program is cultural enrichment to promote peace and understanding among our brightest high school age students before they go to college. McKinney Sunrise Rotary presented Abby with club flags, pins and gifts to exchange for her year abroad.

Sandi Froese is the Director of New Generations Avenue of Service and Mark Lowe is the Chair of Rotary Youth Exchange program. Also assisting were Tom Parker, Director of Community Service, and Lyle Froese, past Assistant Governor, both of whom who will co-chair Interact and Rotary Youth Leadership Awards programs this coming year.

## Reducing infant mortality among gastric patients in Egypt

Rotarians in Egypt and the United States are helping doctors at a pediatric hospital in Cairo save the lives of hundreds of premature babies each year through the gift of lifesaving neonatal equipment.

Using a Rotary Foundation grant, the Rotary clubs of Heliopolis, Egypt, and Minneapolis, Minnesota, USA, purchased several pieces of equipment for the intensive care unit of the Abou El Reesh Children's Hospital, for use in its gastroenterological department.

The hospital treats 1 million patients per year and suffers from overcrowding and lack of equipment. Most of the hospital's patients are from poor or underserved families. The mortality rate has reached 25 percent among all patients and 5 percent for gastric patients.

Wanting to reduce the number of infant deaths, the Heliopolis Rotarians asked the hospital's doctors how they could help. The club, with its Minneapolis partner club, applied for a Foundation grant and raised funds for the US\$23,000 project, which purchased a defibrillator, ventilator, infusion pump, syringe pump, and diagnostic devices.

The Rotarians also advised hospital staff on how to use and maintain the equipment. They plan to conduct a monthly health session to promote proper sanitation and nutrition. The project falls within Rotary's maternal and child health area of focus.

"Our first objective for this project was to make an impact to improve child and maternal health and reduce child mortality," says Ayoub Mahmoud Ayoub, a member of the Heliopolis club and the Rotary public image coordinator for Zone 20B. "Our second objective was to promote Rotary's good work."

Ayoub says a service project like this can raise awareness of Rotary. In Egypt, the public lacks knowledge, and in some cases is even skeptical, about the organization. Changing that perception, he says, is important.

"Our mission with this project and future undertakings is to show that Rotarians help those in need," he added.

Dr. Nabil Abdel Aziz (second from left) and other medical staff of the Abou El Reesh Children's Hospital in Cairo, Egypt, estimates the new equipment could reduce the gastric mortality rate by two percentage points, saving hundreds of lives each year. Photo courtesy of the Rotary Club of Helipolis, Egypt

Nabil Abdel Aziz, the head pediatrician in the gastroenterology unit, praises Rotary's efforts in reducing child mortality. He estimates the new equipment could reduce the gastric mortality rate by two percentage points, saving hundreds of lives each year.

"Without the support of Rotary, deaths of infants could have been far higher," says Aziz. "Rotary represents the bright face of humanity. This type of international support and understanding is what Egypt needs now."

"They gave more than just the equipment," he adds. "They have given parents, many who are poor, hope that their children are going to be taken care of."

The intensive care unit is still in need of additional equipment to serve all of its patients in the neonatal unit. Ayoub said the club plans to apply for other Foundation grants and raise more money with international partners to fill some of those needs by 2015.

## Today's Thoughts in Honor of ....

### National Dog Day– July 26

If a dog jumps in your lap, it is because he is fond of you; but if a cat does the same thing, it is because your lap is warmer.

- Alfred North Whitehead (1861 – 1947)

### Global Forgiveness Day – July 27

"Christmas gift suggestions: To your enemy, forgiveness. To an opponent, tolerance. To a friend, your heart. To a customer, service. To all, charity. To every child, a good example. To yourself, respect."

- Oren Arnold (1900 – 1980)

---

## Chaos

A doctor, a civil engineer, and a computer scientist were sitting around late one evening, and they got to discussing which was the oldest profession.

The doctor pointed out that according to biblical tradition, God created Eve from Adam's rib. This obviously required surgery, so therefore that was the oldest profession in the world.

The engineer countered with an earlier passage in the Bible that stated that God created order from the chaos, and that was most certainly the biggest and best civil engineering example ever, and also proved that his profession was the oldest profession.

The computer scientist leaned back in her chair, and with a sly smile responded, "Yes, but who do you think created the chaos?"
