The Rotary Foundation

The mission of the Rotary Foundation is to enable Rotarians to advance world understanding, goodwill, and peace through the improvement of health, the support of education, and the alleviation of poverty.

The Foundation is a not-for-profit corporation supported solely by voluntary contributions from Rotarians and friends of the Foundation who share its vision of a better world.

Individual Donors

- The Rotary Foundation offers several ways to recognize Rotarians and friends for their generous support.

Naming opportunities

- A named gift is an outright contribution to Annual Programs Fund that provides immediate funding for a program. One hundred percent of the gift is spent on a designated program in that given year.

Sustaining Member

- Anyone who contributes US\$100 or more per year to the Annual Programs Fund is automatically recognized as a Rotary Foundation Sustaining Member.
- Sustaining Members are critical to the Foundation. If every club member contributed \$100 every year, Rotary could nearly double its efforts to help needy people worldwide and support the continued growth of its programs.
- All gifts cumulatively count toward other Foundation recognition programs .

Benefactor

- You may become a Benefactor by making the Permanent Fund a beneficiary in your estate plans or by donating \$1,000 or more to the fund outright.

Bequest Society

- Couples or individuals who have made commitments of \$10,000 or more in their estate plans, such as in a will, living trust, or through whole or universal life insurance, can become Bequest Society members.
- All Bequest Society members receive recognition from the Trustees of The Rotary Foundation. Donors may elect to receive an engraved crystal recognition piece and a Bequest Society pin. You must ask to become a Bequest Society member by filling out a form .

Paul Harris Fellow

- Donors of US\$1,000 or more to the Annual Programs Fund, PolioPlus, or the Humanitarian Grants Program, or people who have that amount contributed in their name, can be recognized as Paul Harris Fellows .

Major Donor

- The Rotary Foundation recognizes couples or individuals whose combined personal outright or cumulative giving has reached \$10,000. All outright contributions made to the Foundation are included in this total, regardless of the gift designation.
- Donors may elect to receive a crystal recognition piece and a Major Donor lapel pin or pendant.

Polio eradication within reach, despite concerns

Among the key goals of the [Global Polio Eradication Initiative](#) (GPEI) is interrupting transmission of the wild poliovirus by the end of 2012. Although the GPEI [Independent Monitoring Board](#) (IMB) reported in July that this goal may be in jeopardy, it also noted signs of progress and provided several recommendations that could help get the program back on track.

The GPEI has made significant steps forward since the launch last year of its new strategic plan and the bivalent oral polio vaccine. Among the four polio-endemic countries, India has reported only one case of polio so far this year. The country “is on track to interrupt transmission this year,” the [report](#) states.

“The northern part of India, where most of the problem had been, hasn’t had one case in 15 months,” adds Robert S. Scott, chair of Rotary’s International PolioPlus Committee.

The other polio-endemic countries are Afghanistan, Nigeria, and Pakistan. The IMB report cites good progress in Afghanistan while spotlighting the challenge of immunizing children in conflict areas. Nigeria also has been making good headway but, following elections in April, needs to sustain the political commitment required to ensure eradication of the disease.

In Pakistan, cases doubled in the first six months of 2011, compared with the same period in 2010. The report commended the country’s high-level commitment to polio eradication through its national emergency action plan, launched in January, but added that the plan needs to make a stronger impact at the local level.

The report also expressed concern about controlling polio in countries with reestablished transmission, including Angola, Chad, and Democratic Republic of the Congo.

Despite these challenges, [polio cases worldwide](#) decreased almost 50 percent during the first six months of 2011, compared with the same period in 2010.

“Type 3 polio numbers have dropped to 15 this year,” says Scott, referring to one of only two strains of the wild poliovirus that remain. “It appears type 3 will soon be eradicated completely.”

Health experts believe that eradicating polio, rather than trying to control the disease, is both feasible and essential.

“There are approximately a dozen countries where polio gets reported sporadically, and those cases can all be traced back to the four countries where transmission has continued,” says Robert Murphy, director of the Center for Global Health at Northwestern University in Illinois, USA. “If we focus on those four countries, the cases in the other countries are going to evaporate.”

“It’s very important to finish the job soon, because we’re so close. If we back off now, the problem is going to get bigger and even more expensive.”

Finishing polio once and for all, the IMB report states, will require enhanced political commitment, secure funding, and strengthened technical capacity.

“The eradication of polio is the responsibility of every government,” says Scott, noting the unanimous decision in 1988 at the World Health Assembly to pursue that goal. “Rotarians in every country must continuously talk it up with their fellow Rotarians and, at every opportunity, with their political leaders, to ensure support, both financial and moral.”

During a [TED](#) conversation in July, Bruce Aylward, the World Health Organization’s assistant director-general for polio eradication and related areas, called Rotarians’ efforts at the international and grassroots levels “incredibly powerful for a global health initiative like polio eradication.”

Everyone can help end the disease, Aylward said, by providing funding and reminding their communities and government leaders that polio still exists and causes tremendous suffering.

“We have the chance to ensure that no child ever suffers from polio again, and each of us plays a role in that,” he said.

Today's Thoughts in Honor of

Newspaper Carrier Day – September 4

The man who reads nothing at all is better educated than the man who reads nothing but newspapers.

- Thomas Jefferson (1743 – 1826)

Read a Book Day – September 6

Literature is the art of writing something that will be read twice; journalism what will be read once.

- Cyril Connolly (1903 – 1974)

Our teacher asked us what our favorite animal was, and I said, "Fried chicken."

She said I wasn't funny, but she couldn't have been right, because everyone else in the class laughed. My parents told me to always be truthful and honest, and I am. Fried chicken is my favorite animal.

I told my dad what happened, and he said my teacher was probably a member of PETA. He said they love animals very much. I do, too. Especially chicken, pork and beef. Anyway, my teacher sent me to the principal's office. I told him what happened, and he laughed, too. Then he told me not to do it again.

The next day in class my teacher asked me what my favorite live animal was. I told her it was chicken. She asked me why, just like she'd asked the other children. So I told her it was because you could make them into fried chicken. She sent me back to the principal's office again. He laughed, and told me not to do it again.

I don't understand. My parents taught me to be honest, but my teacher doesn't like it when I am.

Today, my teacher asked us to tell her what famous person we admire most. I told her, "Colonel Sanders."

Guess where I am now...
