District 5810 Awards Presentation for 2014-2015

Who will win Rotarian of the Year? Which club has bragging rights to the Best Club in the District? Who will be recognized for their Service Above Self? Those questions and many others will be answered on October 3rd as we celebrate the great Rotary year 2014-2015. Please join us at the Haggard Party Barn in Plano on Saturday, October 3rd as we celebrate a year well done. Your host, PDG Bill Dendy will provide light refreshments and drinks. Please REGISTER HERE. <http://www.rotary5810.org/>

NIGERIA DECLARED POLIO-FREE, REMOVED FROM ENDEMIC LIST

The World Health Organization (WHO) announced on 25 September that Nigeria is now polio-free and has been officially removed from the list of countries where polio is endemic. It's been 14 months since any cases of polio caused by the wild virus have been detected there.

With Nigeria's historic achievement, polio remains endemic in only two countries: Afghanistan and Pakistan. That means transmission of the virus has never been stopped there.

Nigeria was the last country in Africa where polio was endemic. The continent celebrated its own first full year without the disease on 11 August. Once three years have passed without a case in WHO's entire African region, officials will certify polio eradicated there.

"Rotary congratulates Nigeria on its tremendous accomplishment in stopping polio," says RI President K.R. Ravindran. "On behalf of the entire Global Polio Eradication Initiative, we thank volunteers, health workers, and parents in communities across Nigeria for their tireless commitment to ensuring every last child is protected against this devastating disease. In the months ahead, their dedication will remain as important as ever, as we work to keep Nigeria polio-free and to eliminate polio from its final strongholds in Pakistan and Afghanistan."

Nigeria's success is the result of several sustained efforts, including domestic and international financing, the commitment of thousands of health workers, and new strategies that reached children who had not previously been immunized because of a lack of security in the country's northern states.

TYPE 2 POLIOVIRUS GONE FOR GOOD

In other encouraging news, an independent global health commission officially verified on 21 September that wild poliovirus type 2, one of three strains of the wild virus, has been eradicated worldwide. Although the last type 2 case was detected back in 1999, the confirmation is an important milestone, as Rotary and its partners in the Global Polio Eradication Initiative prepare to switch from a form of the vaccine that targets all polio types to one that does not protect against type 2.

The announcement by the Global Commission for the Certification of Poliomyelitis Eradication confirms that only two strains of the wild poliovirus remain. Of those, type 3 wild poliovirus

hasn't been detected in almost three years, and wild poliovirus type 1 is endemic only in Afghanistan and Pakistan.

FUNDING INCREASE NEEDED TO REACH FINAL GOAL

On 25 September, the Polio Oversight Board met to determine the next steps needed to eradicate polio. The group concluded that \$1.5 billion in new funding is needed to help Rotary and its partners end polio in the next few years. With Nigeria now polio-free, spending will focus on the most vulnerable children in Afghanistan and Pakistan, while continuing to shield millions of children already living in polio-free countries.

“With a fully funded program and global commitment to ending this disease, we have the opportunity to interrupt transmission of the wild poliovirus in Pakistan and Afghanistan in 2016, opening the door for certification of a global eradication in 2019,” says Michael K. McGovern, chair of Rotary’s International PolioPlus Committee. “With [Rotary members’] continued support, we will soon see our dream of a polio-free world realized.”

Today's Thoughts in Honor of

National Custodial Worker Day – October 2nd

“One of the advantages of being disorderly is that one is constantly making exciting discoveries”

- A. A. Milne (1882 – 1956)

World Teachers Day – October 5th

The whole art of teaching is only the art of awakening the natural curiosity of young minds for the purpose of satisfying it afterwards.

- Anatole France (1844 – 1924)

The two ladies were sitting in the living room, waiting for their hostess, who was slightly delayed. The daughter of the family was with them, on the theory that she would keep the visitors occupied during the wait.

The child was about six years old, snub nosed, freckled, buck-toothed and bespectacled. She maintained a deep silence and the two ladies peered doubtfully at her.

Finally, one of them muttered to the other, "Not very p-r-e-t-t-y, I fear," carefully spelling the key word.

Whereupon the child piped up, "But awfully s-m-a-r-t!"
